## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 2002006049 (Canon Inc.). The Japanese Patent Application (Canon Inc.) discloses an portable X-Ray Imaging Device comprising: an x-ray imaging device is enclosed within a housing structure, an electronic circuit for monitoring conditions and processing electric signal and regulating cooling unit temperature by operating the blower and supplying air current into the enclosure (see figure).

### ***Allowable Subject Matter***

**Claims 16-26 are allowed over the prior art of record.**

Claims 2-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 02/29/2008 have been fully considered but they are not persuasive. Since it is blower inherently cycle on and off basic on set temperature conditions it is therefore deemed to consist of a temperature regulating feature.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
